| Description                  | IC CIRCUIT TNY PWR RESET SOT23-5               |
| Category                     | Integrated Circuits (ICs) > PMIC - Supervisors |
| Part Status                  | 2550 pcs Stock                                 |
| Voltage - Threshold          | 2.93V                                          |
| Type                         | Simple Reset/Power-On Reset                    |
| Supplier Device Package      | SOT-23-5                                       |
| Series                       | -                                              |
| Reset Timeout                | 1 ms Minimum                                   |
| Reset                        | Active Low                                     |
| Packaging                    | Original-Reel®                                 |
| Package / Case               | SC-74A, SOT-753                                |
| Output                       | Open Drain or Open Collector                   |
| Operating Temperature        | -40°C ~ 85°C (TJ)                              |
| Number of Voltages Monitored | 1                                              |
| Mounting Type                | Surface Mount                                  |
